Electrical Heat Tracing Cables

Popular Items

BSX - In Stock Self-Regulating

These top of the line heating cables provide both freeze protection and process temperature maintenance for metallic piping as well as non-metallic piping, tanks and equipment.

HTSX - In Stock Self-Regulating

HTSX self-regulating trace heaters are engineered for process temperature maintenance and freeze protection in high-temperature environments. Built to endure steam purging, HTSX offers exceptional performance.

Shop Thermon's two most self-regulating cables: [HTSX 12-2-OJ](#) and [HTSX 9-2-OJ](#).

End Kits, Tape, Accessories - In Stock

Thermon heat trace accessories are essential components designed to enhance the efficiency and reliability of heat tracing systems. Our comprehensive range includes terminator kits, banding tape, and other products, ensuring seamless installation and optimal performance for various applications..
